THE COMPANY

Superior Energy Services, Inc. ("Superior" or the "Company"), through its subsidiaries, provides specialized oil field services in the Gulf of Mexico. The Company's services include plugging and abandoning oil and gas wells and providing wireline services, the manufacture, sale and rental of specialized oil well equipment and fishing tools, the development, manufacture, sale and rental of oil and gas drilling instrumentation and computerized rig data acquisition systems, and the development, manufacture and sale of oil spill containment booms and ancillary equipment.

The Company's executive offices are located at 1503 Engineers Road, Belle Chasse, Louisiana and its telephone number at such address is (504) 393-7774.

RISK FACTORS

Prospective investors should carefully consider the following factors, in addition to other information contained in or incorporated by reference in this Prospectus, regarding an investment in the Common Stock offered hereby.

Industry Volatility. The demand for oil field services has traditionally been cyclical. Demand for the Company's services is significantly affected by the number and age of producing wells and the drilling and completion of new oil and gas wells. These factors are affected in turn by the willingness of oil and gas operators to make capital expenditures for the exploration, development and production of oil and natural gas. The levels of such capital expenditures are influenced by oil and gas prices, the cost of exploring for, producing and delivering oil and gas, the sale and expiration dates of leases in the United States and overseas, the discovery rate of new oil and gas reserves, local and international political and economic conditions and the ability of oil and gas companies to generate capital. Although the production sector of the oil and gas industry is less immediately affected by changing prices, and, therefore, less volatile than the exploration sector, producers would likely react to declining oil and gas prices by reducing expenditures, which could adversely affect the business of the Company. No assurance can be given as to the future price of oil and natural gas or the level of oil and gas industry activity.

Seasonality. The businesses conducted by the Company are subject to seasonal fluctuation. The nature of the offshore oil and gas industry in the Gulf of Mexico is seasonal and depends in part on weather conditions. Purchases of the Company's products and services are also to a substantial extent, deferrable in the event oil and gas companies reduce capital expenditures as a result of conditions existing in the oil and gas industry or general economic downturns. Fluctuations in the Company's revenues and costs may have a material adverse effect on the Company's business and operations. Accordingly, the Company's operating results may vary from quarter to quarter, depending upon factors outside of its control.

Dependence on Oil and Gas Industry; Dependence Upon Significant Customers. The Company's business depends in large part on the conditions of the oil and gas industry, and specifically on the capital expenditures of the Company's

customers. Purchases of the Company's products and services are also, to a substantial extent, deferrable in the event oil and gas companies reduce capital expenditures as a result of conditions existing in the oil and gas industry or general economic downturns. The Company derives a significant amount of its revenues from a small number of independent and major oil and gas companies. The inability of the Company to continue to perform services for a number of its large existing customers, if not offset by sales to new or existing customers, could have a material adverse effect on the Company's business and operations.

Technology Risks. Sales of certain of the Company's products are based primarily on its proprietary technology. The Company's success in the sales of these products depends to a significant extent on the development and implementation of new product designs and technologies. Many of the Company's competitors and potential competitors have more significant resources than the Company. While the Company has patents on certain of its technologies and products, there is no assurance that any patents secured by the Company will not be successfully challenged by others or will protect them from the development of similar products by others.

Intense Competition. The Company competes in highly competitive areas of the oil field business. The volatility of oil and gas prices has led to a consolidation of the number of companies providing services similar to the Company. This reduced number of companies competes intensely for available projects. Many of the competitors of the Company are larger and have greater financial and other resources than the Company. Although the Company believes that it competes on the basis of technical expertise and reputation of service, there can be no assurance that the Company will be able to maintain its competitive position.

Potential Liability and Insurance. The operations of the Company involve the use of heavy equipment and exposure to inherent risks, including blowouts, explosions and fire, with attendant significant risks of liability for personal injury and property damage, pollution or other environmental hazards or loss of production. The equipment that the Company sells and rents to customers are also used to combat oil spills. Failure of this equipment could result in property damage, personal injury, environmental pollution and resulting damage. Litigation arising from a catastrophic occurrence at a location where the Company's equipment and services are used may in the future result in large claims. The frequency and severity of such incidents affect the Company's operating costs, insurability and relationships with customers, employees and regulators. Any increase in the frequency or severity of such incidents, or the general level of compensation awards with respect thereto, could affect the ability of the Company to obtain projects from oil and gas operators or insurance and could have a material adverse effect on the Company. In addition, no assurance can be given that the Company will be able to maintain adequate insurance in the future at rates it considers reasonable.

Laws and Regulations. The Company's business is significantly affected by laws and other regulations relating to the oil and gas industry, by changes in such laws and by changing administrative regulations. The Company cannot predict how existing laws and regulations may be interpreted by enforcement agencies or court rulings, whether additional laws and regulations will be adopted, or the effect such changes may have on it, its businesses or financial condition. Federal and state laws require owners of non-producing wells to plug the well and remove all exposed piping and rigging before the well is abandoned. A decrease in the level of enforcement of such laws and regulations in the future would adversely affect the demand for the Company's services and products. Numerous state and federal laws and regulations affect the level of purchasing activity of oil containment boom and consequently the Company's business. There can be no assurance that a decrease in the level of enforcement of laws and regulations in the future would not adversely affect the demand for the Company's products.

Environmental Regulation. The Company believes that its present operations substantially comply with applicable federal and state pollution control, and environmental

protection laws and regulations and that compliance with such laws has had no material adverse effect upon its operations to date. No assurance can be given that environmental laws will not, in the future, materially adversely affect the Company's operations and financial condition.

Shares Eligible for Future Sale. As of February 27, 1997, the Company had 18,597,045 shares of Common Stock outstanding, of which 6,174,419 have been registered under the Securities Act and generally are freely transferable, (other than shares acquired by "affiliates" of the Company as such term is defined by Rule 144 under the Securities Act of 1933, as amended (the "Securities Act")). None of the 12,422,626 remaining shares of Common Stock issued by the Company were acquired in transactions registered under the Securities Act and, accordingly, such shares may not be sold except in transactions registered under the Securities Act or pursuant to an exemption from registration. Approximately 520,000 shares of Common Stock are eligible for sale in reliance upon exemptions from registration. The Company is unable to estimate the number of shares that will be sold since this will depend on the market price for the Common Stock, the personal circumstances of the sellers and other factors. Any future sale of substantial amounts of Common Stock in the open market may adversely effect the market price of the Common Stock offered hereby.

Concentration of Common Stock Ownership. The Company's directors and executive officers and certain of their affiliates beneficially own approximately, 55.5% of the outstanding shares of Common Stock. Accordingly, these shareholders will have the ability to control the election of the Company's directors and the outcome of most other matters submitted to a vote of the Company's shareholders.

Possible Volatility of Securities Prices. The market price of the Common Stock has in the past been, and may in the future continue to be, volatile. A variety of events, including quarter to quarter variations in operating results, news announcements or the introduction of new products by the Company or its competitors, as well as market conditions in the oil and gas industry, or changes in earnings estimates by securities analysts may cause the market price of the Common Stock to fluctuate significantly. In addition, the stock market in recent years has experienced significant price and volume fluctuations which have particularly affected the market prices of equity securities of many companies that service the oil and gas industry and which often have been unrelated to the operating performance of such companies. These market fluctuations may adversely affect the price of the Common Stock.

No Dividends. The Company's Board of Directors has not paid any dividends on its Common Stock. The Company does not expect to declare or pay any dividends in the foreseeable future.

Potential Adverse Effect of Issuance of Preferred Stock Without Stockholder Approval. The Company's Certificate of Incorporation authorizes the issuance of 5,000,000 shares of preferred stock, \$.01 par value per share, with such designations, rights and preferences as may be determined from time to time by the Board of Directors. Accordingly, the Board of Directors is empowered, without stockholder approval, to issue preferred stock with dividend, liquidation, conversion, voting or other rights which could adversely affect the voting power or other rights of the holders of the Common Stock and, in certain circumstances, depress the market price of the Common Stock. In the event of issuance, the preferred stock could be utilized under certain circumstances as a method of discouraging, delaying or preventing a change in control of the Company. There can be no assurance that the Company will not issue shares of preferred stock in the future. See "Description of Securities."

Key Personnel. The Company depends to a large extent on the abilities and continued participation of its executive officers and key employees. The loss of the services of any of these persons would have a material adverse effect on the Company's business and operations.

Forward-Looking Statements

This Prospectus contains certain forward-looking statements concerning the Company's operations, economic performance and financial condition, including in particular, the integration of the Company's recent and pending acquisitions into the Company's existing operations. Such statements are subject to various risks and uncertainties. Actual results could differ materially from those currently anticipated due to a number of factors, including those identified under "Risk Factors" and elsewhere in this Prospectus.

PLAN OF DISTRIBUTION

All of the Shares offered hereby are being sold by the Selling Stockholders. The Company has been advised that the Shares will be offered by the Selling Stockholders from time to time on the Nasdaq National Market, where the Common Stock is listed, or elsewhere in privately negotiated transactions, at fixed prices which may be changed, at market prices prevailing at the time of offer and sale, at prices related to such prevailing market prices or at negotiated prices. The Selling Stockholders may effect such transactions by offering and selling the Shares directly or to or through securities broker-dealers, including Gaines, Berland Inc. and GKN Securities Corp., and such broker-dealers may receive compensation in the form of discounts, concessions, or commissions from the Selling Stockholders and/or the purchasers of the Shares for whom such broker-dealers may act as agent or to whom the Selling Stockholders may sell as principal, or both (which compensation as to a particular broker-dealer might be in excess of customary commissions). Upon the Company being notified by any Selling Stockholder that a material arrangement has been entered into with a broker or dealer for the sale of Shares, a Prospectus Supplement will be filed, if required, pursuant to Rule 424(c) under the Securities Act, disclosing (a) the name of each such broker-dealer, (b) the number of Shares involved, (c) the price at which Shares were sold, (d) the commissions paid or discounts or concessions allowed to such broker-dealer(s), where applicable, and (e) other facts material to the transaction.

The Selling Stockholders and any broker-dealers who act in connection with the sale of the Shares hereunder may be deemed to be "underwriters" within the meaning of Section 2(11) of the Securities Act, and any commissions received by them and profit on any resale of the Shares as principal might be deemed to be underwriting discounts and commissions under the Securities Act.

The Company has advised the Selling Stockholders that they and any securities broker-dealers or others who may be deemed to be statutory underwriters will be subject to the Prospectus delivery requirements under the Securities Act. The Company has also advised the Selling Stockholders that in the event of a "distribution" of the Shares, the Selling Stockholders, any "affiliated purchasers," and any broker-dealer or other person who participates in such distribution may be subject to Rule 10b-6 (and, commencing March 4, 1997, Regulation M) under the Exchange Act until his or its participation in that distribution is completed. A "distribution" is defined in the rules under the Exchange Act as an offering of securities "that is distinguished from ordinary trading transactions by the magnitude of the offering and the presence of special selling efforts and selling methods." Rule 10b-6 (and Regulation M) makes it unlawful for any person who is participating in a distribution to bid for or purchase stock of the same class as is the subject of the distribution. The Company has also advised the Selling Stockholders that Rule 10b-7 (and Regulation M) under the Exchange Act prohibits any "stabilizing bid" or "stabilizing purchase" for the purposes of pegging, fixing or stabilizing the price of the Common Stock in connection with this offering.

The Company has agreed to indemnify certain of the Selling Stockholders and underwriters against certain liabilities, including liabilities under the Securities Act.

LEGAL MATTERS

The validity of the issuance of the Common Stock offered hereby will be passed upon for the Company by Jones, Walker, Waechter, Poitevent, Carree & Denegre L.L.P., New Orleans, Louisiana.

Item 15. Indemnification of Directors and Officers.

Section 145 of the General Corporation Law of Delaware, as amended ("GCL"), authorizes a Delaware corporation to indemnify its officers, directors, employees and agents under certain circumstances against expenses and liabilities incurred in legal proceedings involving such persons because of their holding or having held such positions with the corporation and to purchase and maintain insurance for such indemnification. Article Tenth of the Company's Certificate of Incorporation, a copy of which is filed as Exhibit 4.1 and incorporated herein by reference,

provides for the indemnification of directors and officers against expenses and liabilities incurred in connection with defending actions brought against them for negligence or misconduct in their official capacities.

Paragraph 7 of Section 102(b) of the GCL permits a Delaware corporation, by so providing in its Certificate of Incorporation, to eliminate or limit the personal liability of a director to the corporation for damages arising out of certain alleged breaches of the director's duties to the corporation. The GCL, however, provides that no such limitation of liability may affect a director's liability with respect to any of the following: (i) for breach of the director's duty of loyalty to the corporation or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) for unlawful payment of dividends or unlawful purchase or redemption of its capital stock, or (iv) for any transaction from which the director derived an improper personal benefit. Article Ninth of the Company's Certificate of Incorporation eliminates the personal liability of the directors of the Company to the fullest extent permitted by Paragraph 7 of Section 102(b) of the GCL.

Item 17. Undertakings.

The undersigned registrant hereby undertakes:

(1) (a) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

(i) To include any prospectus required by section 10(a)(3) of the Securities Act of 1933;

(ii) To reflect in the prospectus any facts or events arising after the effective date of this registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in this registration statement;

(iii) To include any material information with respect to the plan of distribution not previously disclosed in this registration statement or any material change to such information in this registration statement;

Provided, however, that paragraphs (1)(a)(i) and

(1)(a)(ii) do not apply if the information required to be included in a post-effective amendment by those paragraphs is contained in periodic reports filed by the small business issuer pursuant to Section 13 or Section 15(d) of the Securities Exchange Act of 1934 that are incorporated by reference in this registration statement.

(b) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(c) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(2) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the small business issuer pursuant to the provisions described under Item 15 above, or otherwise, the small business issuer has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the small business issuer of expenses incurred or paid by a director, officer or controlling person of the small business issuer in the successful defense of any action, suit, or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the small business issuer will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

(3) For purposes of determining any liability under the Securities Act of 1933, the information omitted from the form of prospectus filed as part of this Registration Statement in reliance upon Rule 430A and contained in a form of prospectus filed by the small business issuer pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this Registration Statement as of the time it was declared effective.

(4) For the purpose of determining any liability under the Securities Act of 1933, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(the "Company"), in connection with the preparation of the registration statement on Form S-3 (the "Registration Statement") filed by the Company under the Securities Act of 1933, as amended, with the Securities and Exchange Commission (the "Commission"), on the date hereof, with respect to the registration of 561,666 shares of Common Stock, \$.001 par value per share (the "Shares"), of the Company.

In so acting, we have examined originals, or photostatic or certified copies, of such records of the Company, certificates of officers of the Company and of public officials, and such other documents as we have deemed relevant. Based upon the foregoing, we are of the opinion that the Shares, when issued and sold upon the terms described in the Registration Statement, will be validly issued and outstanding, fully paid and non-assessable.

We consent to the filing of this opinion as an exhibit to the Registration Statement and to the reference to us in the prospectus included therein under the caption "Legal Matters." In giving this consent, we do not admit that we are within the category of persons whose consent is required under Section 7 of the Securities Act of 1933, as amended, or the general rules and regulations of the Commission promulgated thereunder.

Very truly yours,

/s/ Jones, Walker, Waechter, Poitevent,
